The C2W Group

C2W Group's businesses are founded on the concept of tier one quality services and innovative products at a competitive price.

From our foundations in HK in 2005 as a manufacturing consultancy we now have businesses in several different countries and in a diverse range of sectors including manufacturing, quality control, product design & development, bars & restaurants, watersports equipment, education, healthcare products, food distribution and telecommunications.

Within the group we currently have offices in 9 different countries with 7 offices in mainland China.

Our dedicated and passionate team work tirelessly across our business sectors as we continue to grow and to seek out new investment opportunities.

We are always looking for great people and for new challenges so do not hesitate to contact us if you would like to work for or partner with C2W Group.

The Companies

China 2 West Services

China 2 West is a British owned and managed product design, development and manufacturing organisation with offices in the UK, US, Canada, Mexico, Croatia, Lebanon and our headquarters based in China. Our core capabilities lie in delivering a complete supply solution for Chinese manufactured products to be suitable for Western markets. Our uniqueness is being able to offer solutions from any point in the development chain including those that are just a mere concept.

With a growing team of engineers in many different technical fields we are confident that no product is out of the range of our capabilities.

From CAD design work and R&D, through prototyping, tooling and manufacturing, China 2 West has it all covered.

The Companies

i2design

i2design.asia prides itself on taking virtually any idea at any stage in its development, from concept to technical evaluation and providing the client a fully developed design regardless of its purpose while doing so at a fraction of the cost its western based rivals can offer.

i2design.asia can provide developed designs, product solutions, technical drawings and mold designs on a consultancy basis where the customer maintains full rights and ownership of the design and all information is subject to strict confidentiality agreements that cover not just the China 2 West Group but also future potential manufacturers of the product after its development.

The Companies

International Futures

International Futures (IF) is an elite specialist business English consultancy. We provide quality driven British English business training designed to not only teach you English but to also develop your career and increase your business' revenue.

Many business and English training centres in China claim to be 'international schools' despite being Chinese owned and managed. They might hire foreign teachers, but everything about their business philosophy is local.

From the way we manage staff, to the way we market ourselves, to the way we teach our students, everything is done in a truly international way.

This means that when you are in our English classes, you are not just learning from a foreign teacher, you are entering an entirely English environment. In effect, an IF classroom is like a trip to London.
